

# October is Cybersecurity Awareness Month

## Understand Your Risk

Business big and small, including agriculture, are at risk of cybercrimes.

**\$21 Billion**

The cost of worldwide ransomware attacks

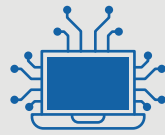

**31%**

Increase in cyber attacks

**47%**

Businesses that have experienced cybercrime

**\$4.35 Million**

Cost of average data breach in lost business and fines

**54%**

Companies that say their IT departments are sophisticated enough to handle cyberattacks

The FBI has warned that the food and agriculture sector is at an increased risk of ransomware attacks timed during peak seasons for greatest impact on the food supply chain.

## TECH AS AN OFFENSE SAVES MONEY

**\$1-3 Million**

Savings when breaches occur if organization has incident response tools in place

ZAG Technical Services is a tech company with roots in agriculture and a specialty in agribusiness. We understand perishability, speed to market, labor issues, implementation of AG tech and the challenges of your business so we can bring you IT and managed service solutions to outsmart, outpace and outperform the competition.
